WORK EXPERIENCE

02/2021 - Present
Co-Founder, CEO at Technodune
Lead a young start-up I co-founded, Technodune, aimed at churning out next-gen technology in the fields of IoT, Robotics and Drones through innovative products which shape the future.

01/2021 - 08/2021
Project Lead at Maker's Lab, Tech Mahindra, Pune
Leading 2 teams at Maker's Lab. One to research and do development on swarm robotics for defence use cases. Second, to build a dashboard around space and satellite data for various use cases.

05/2020 - 06/2020
Cyber Security Consultant at INGLU
Secured Web Applications against vulnerabilities and consulted several clients one on one helping them secure hostings, emails, accounts etc.

06/2019 - 07/2019
IoT & QC Intern at Maker's Lab, Tech Mahindra, Pune
Worked on IoT Products involving multiple sensors and a Web Dashboard. Researched on possible future prospects of Quantum Computing and its impact on the consumer market.

11/2017 - 08/2018
Full Stack Intern, Pearl Enterprises, Jaipur
Worked on 'Trade', a product for SME segment for simplified bookkeeping and financial analysis with a minimal code footprint.
