PARTH SHARMA

EDUCATION

B.Tech. (CSE) Second Year, 2018-22
Ajeenkya D.Y. Patil University,
Pune

India International School, Jaipur
Graduated in 2017
XII CBSE – 91.4%

PROGRAMMING ACUMEN

HTML/CSS ★★★★★
Very well versed in HTML and CSS, can build modern and fully responsive websites. Worked on various websites/projects with different levels of complexity.

JavaScript ★★★★★
JavaScript is my forte and is one of the first languages I started with when I was 6. I have worked with a lot of different libraries and plugins (jQuery, Flask, Bootstrap, PhoneGap etc.) on top of JavaScript as well.

MySQL ★★★★
I am well versed in MySQL, and have worked with it in almost every project. Can create and design databases and table structures very well, along with optimized and efficient queries.

PHP ★★★★
My knowledge in PHP fills in the last gap to help me do Full Stack Web Development.

ASP.net ★★★
Worked with ASP.net to contribute in an ERP for a client. Combined with my base knowledge of HTML/CSS, I can work very well with ASP.net.
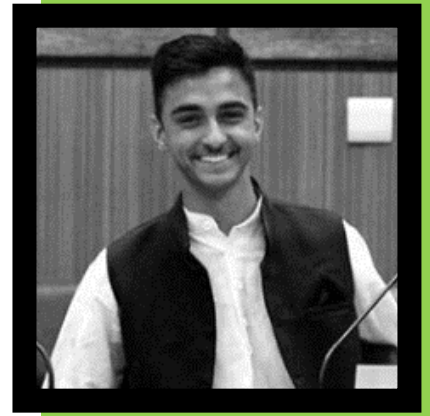

C++ ★★★★
Worked extensively on C++ with IoT devices such as the Arduino and the esp8266. Capable of creating complete consumer end products from scratch.

JAVA/Android ★★★★
Worked on several projects on both JAVA and Android. Capable of building small/medium scale applications in JAVA and integrating back-end as well.

SUMMARY

Enthusiastic and ambitious engineering student, skilled in technical aspects, leadership and communication. Professional full-time experience of over a year plus further 2+ years of experience handling startups and working on miscellaneous projects. Well versed in over 8 programming languages and various technical skills. Substantial creative acumen, can significantly contribute to the community. Ready to learn, adapt and work hard.

Python ★★★
Core knowledge and my ability to grasp on concepts and technologies fast allowed me to learn Python really fast. I have worked on a few small projects with the language.

VB/VB.net ★★★
Have worked with both VB and VB.net in projects. Helped create a POS application for a restaurant using VB.net. Used VB to create several macros for projects.

Electronics ★★★★★
I have also worked extensively with electronics in the recent 5 years. Can reverse engineer small-medium circuits and can design and build circuits from scratch as well.

EXPERIENCE & HIGHLIGHTS

- Over 12 years of coding (started when I was 6)

- Worked on both contract based & client projects

- Strong foundation, very fast learner

- Capable of leading teams, full stack developer
- CodeChef Core Team member at Bennett University (2018-19)

PARTH
SHARMA

"To achieve a position which allows me to make maximum use of my technical and leadership skills in a challenging as well as rewarding environment."

TOP SKILLS

- Core Technical Knowledge
- Quick Learner
- Leadership
- Team Management
- Communication
